APPLICANT : HITACHI CABLE LTD;

INVENTOR : NAGATOMO KATSU;

INT.CL. : B60M 1/30 B60M 1/30

TITLE : COMPLEX ELECTRIC OVERHEAD  
LINE AND MANUFACTURE THEREOF

ABSTRACT : PURPOSE: To prevent the occurrence of warping caused by additional fastening.

CONSTITUTION: In a complex electric overhead line 11 which comprised a conductive shielding member 13 in an U shape in cross section combined integrally with a flange section 15 formed on a conductive frame 12 in such a way that the flange section is enclosed by means of an additional fastening work where the aforesaid shielding member includes a wear resistance member 17 at its sliding surface 16, a plurality of slits 21 are formed at specified intervals along the longer direction of the additional fastening section 18 of the conductive shielding member 13.
